

Geometry Grade Tracker – semester 1

- If you take more than 3 of the same target, only consider the most RECENT three to find the median.
- If you do not do a retake (and thus have two scores for a skill) and the median is not an integer the SKILL grade will be rounded toward the in-class individual test.

Target	#1	#2	#3	R1	R2	R3	SKILL Grade (Median of most recent 3 of target)
